

Excel Addin installers for use by JMP version 9 products

UNINSTALL

1. navigate to the uninstall program dialog under Control Panel
2. uninstall JMP Profiler Core
3. uninstall JMP Profiler GUI

INSTALL

These files are used to install the add-in logic that will allow Microsoft Excel and JMP to connect via the JMP add-in to Excel. The installer files needed are located in `<install_folder>\JMP\9\ExcelAddin`.

 <p><INSTALL_FOLDER>\JMP\9\ExcelAddin</p> <ul style="list-style-type: none">2003PIA<ul style="list-style-type: none">O2003PIA.MSIo2003PIA_EULA.txto2003PIA_ReadMe.rtf2007PIA<ul style="list-style-type: none">eula.txto2007pia.msio2007pia_readme.rtfProfilerCore<ul style="list-style-type: none">JMPProfilerCoreSetup.msisetup.exeProfilerCore_x64<ul style="list-style-type: none">JMPProfilerCore_x64.msisetup.exeProfilerGUI<ul style="list-style-type: none">JMPProfilerGUISetup.msisetup.exeProfilerGUI_x64<ul style="list-style-type: none">JMPProfilerGUISetup_x64.msisetup.exeProfilerGUI-2K3<ul style="list-style-type: none">JMPProfilerGUI_2k3Setup.msisetup.exe	<p>If you have Excel 2003, launch the installers in this order:</p> <ol style="list-style-type: none">1. \2003PIA\o2003pia.msi2. \ProfilerCore\setup.exe3. \ProfilerGUI-2K3\setup.exe <p>If you have Excel 2007, launch the installers in this order:</p> <ol style="list-style-type: none">1. \2007PIA\o2007pia.msi2. \ProfilerCore\setup.exe3. \ProfilerGUI\setup.exe <p>If you have Excel 2010 32-bit, launch the installers in this order:</p> <ol style="list-style-type: none">1. \ProfilerCore\setup.exe2. \ProfilerGUI\setup.exe <p>If you have Excel 2010 64-bit, launch the installers in this order:</p> <ol style="list-style-type: none">1. \ProfilerCore_x64\setup.exe2. \ProfilerGUI_x64\setup.exe
